Farm History

Lee & Cheryl Flyte

Adam, (Carrie, Mikayla, Tristan, & Taylor Thomas), Jessica, (Matt, Karissa, Makenna, & Addysin), & J.R. (Kristen & Henry)

Lee and Cheryl Flyte established the farm in 1974. They started with a few acres of vegetables, and now with the help of their children and employees, they raise over 125 acres of sweet corn and 40 acres of vegetables and melons. Quality vegetables and melons are brought to you fresh daily as the season allows. We hand pick, grow what we sell, and are happy to take special orders.

Hydroponic tomato and cucumber production is the newest venture for the Flyte Family Farm. Adam and Carrie now have 5 greenhouses and begin harvest in April. They may be reached at Flyte Family Farm Too and Greenhouses, W13450 Cottonville Ave., Coloma, WI 54930 (715)-228-2304.

Farming is our business, not a pastime. Fresh market vegetable and melon production is our specialty.

We appreciate your business! Thank you!

Established in 1974
